MNC
PORTFOLIO

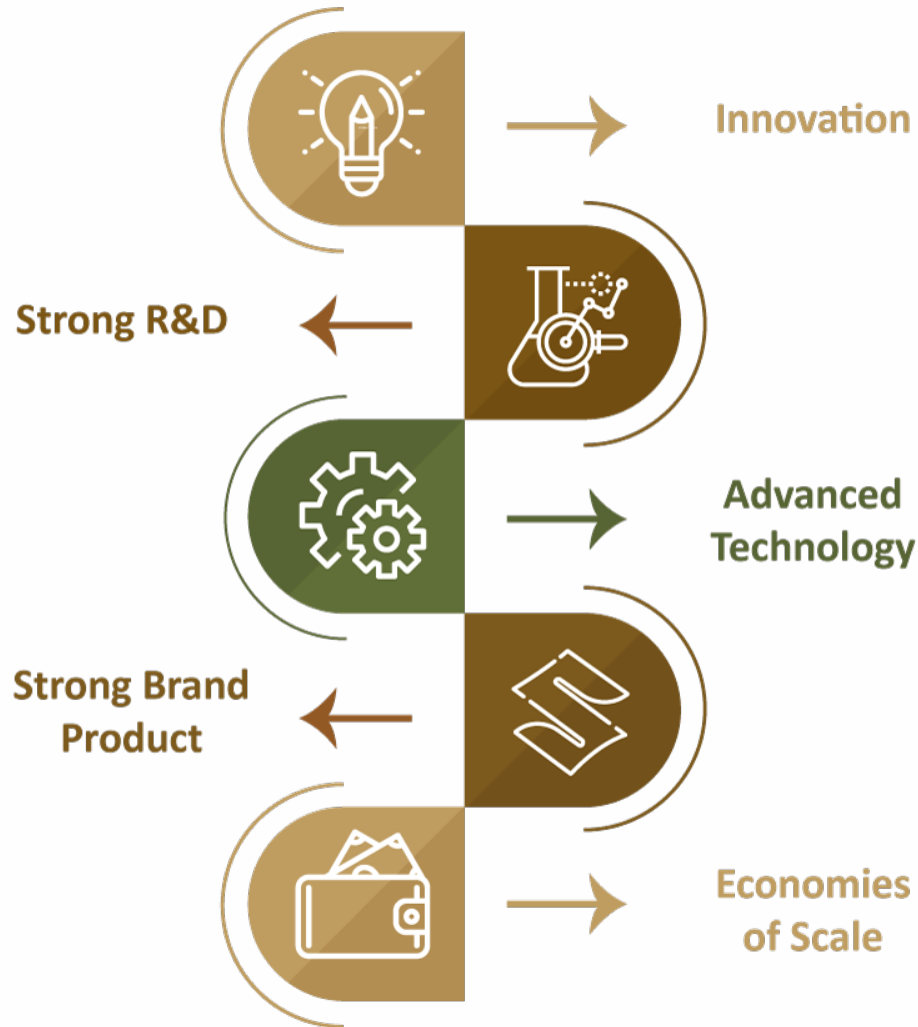

Objective

Focus on consistency of return and risk moderation by investing in Multinational Companies listed in India.

Investments into listed companies in India in which the foreign shareholding is over 50% and/or the management control is bestowed in foreign company and/or the technological and managerial know-how brought in by foreign partner/investor.

- MNC's benefit from the economy of scales by spreading R&D expenditures and advertising costs over their global sales, pooling global purchasing power over suppliers, and utilizing their technological and managerial know-how globally with minimal additional costs.
- MNC's can use their global presence to take advantage of underpriced labor services available in certain developing countries, and gain access to special R&D capabilities residing in advanced foreign countries

- MNC's are generally rated high for their corporate governance standard.
- MNC's depict high transparency and accountability with well laid out policies and regulatory framework, internal control and risk management.
- This provide good comfort for an investor who would not fall prey to any negative impact on investment due to corporate mis-management and fraud.

High Operating Ratio

Most MNC's have better operating ratios compared to its peers, Operating margins would vary depending upon the sector it operates in.

Zero Debt or Low Debt Equity

Most MNC's are zero debt company or Very low on Debt Equity hence. Changes in Interest rate cycle do not affect these companies.

Positive Free Cash Flow

Operating free cash flow is positive in most of them, they are cash rich and regular dividend paying company.

Healthy Return Ratio

Return ratio like ROE and ROCE are also high compare to peer group in most cases. Investors benefit from share premium the share price command on sustain basis.

MNC companies during the holding period provides healthy dividend and capital appreciation by earnings growth and sometime carries an additional trigger for value appreciation in form of corporate actions like Open offers, Buybacks and Delisting etc. This usually add substantial appreciation to the share price enhancing investors ROI. Below are some illustrations of the same.

PORTFOLIO STRATEGY

Out of 4500 listed Company, there are only 90 odd MNC Companies which are own by Foreign Promoter with more then 1000 cr Market Cap which make the stock universe limited for further evaluation.

Well Balanced Defensive but Growth

The three bucket strategy with shifting allocation as per the market outlook help to further optimize the returns, However Consumables remains the core part of the portfolio.

Growth like Multicap but Quality like Large Cap

- MNC PMS is a Multicap Portfolio with all market capitalization. (large, Mid, Small)
- There are many companies which by Indian Market Cap Definition are called as Midcap Companies where as by Global Definition these are Large cap.
- One gets benefit of growth like Midcap Companies in India where as Quality of Large Cap. Few Eg given below

Pfizer	<ul style="list-style-type: none">• Midcap in India• Biggest Pharma Company in World
3 M India	<ul style="list-style-type: none">• Midcap in India• Part of Dowjones 30 index
Bata India	<ul style="list-style-type: none">• Midcap in India• 125 year old Company operates in 70 Countries

Low Churn - Long term but Active Management

*GMM Pfadler has been totally exited

Though we have kept single stock weight max 15%, Partial Profit booking is done whenever overall weight of single stock in portfolio reaches close to 9-10% of portfolio.
Max 15% weight is kept in case of any special opportunity is going to get unfold in short term.

Average Annual
Turnover 27%

Partial Profit booking and Stocks completely exited in profit is shown in adjacent table.

To optimize performance there are couple of partial and complete exits in losses done depending upon market dynamics.

Eg: Reducing allocation in Auto and Ancillary in 2018-19 where sector was going through challenges

Eg 2: Covid 19. Reducing allocation in Industrial and cyclical
